

- 1) Question Type multiSelect / dropdown hoy to api ma randomize key true aave to option ni sequence change kari n random show karvana
- 2) Question Type multiSelect / dropdown hoy to api ma otherOption key true aave to option na end ma ek text box show karvanu and value fill kare e priview ma show karvani and api ma pass karvani
- 3) Question Type multiSelect / dropdown hoy to selection par validation add karvanu dynamic e api ma thi aavse like (at least 5 selected hovajoye, fix 5 select hova joye ...)
- 4) Question Type multiSelect / dropdown hoy to option na text sathe image aave to show karvani baki ny
- 5) submitted form ni tab hase ema submit karel form no data view karvano che user e jetla form submit karya hoy e badha aavse
- 6) Display logic and skip logic as per the discussed on the call
- 7) multiSelect type ma check box ma je value select kare e api ma data pass nathi thy rahyo
- 8) Scanning functionality ma improvement karva na che je possible thy atla
- 9) Scan ma atyre badha option select karva pade je apde backend ma thi flag per direct e j featus use thvu joye
- 10) Small changes and bugs need to address

- 1) Type multiSelect hoy and randomize true hoy tyare options ni sequence change kari n show karvana
- 2) Type DropDown hoy and randomize true hoy tyare options ni sequence change kari n show karvana
- 3) Type multiSelect hoy and otherOption key true hoy option na end ma ek text box show karvanu and value fill kare e priview ma show karvani and api ma pass karvani
- 4) Type DropDown hoy and otherOption key true hoy tyare select box pachi ek text box show karvanu and value fill kare e priview ma show karvani and api ma pass karvani
- 5) Type multiSelect hoy and option sathe image aave to option ni sathe image pan show karvani
- 6) multiSelect type ma check box ma je value select kare e api ma data pass nathi thy rahi but priview ma display thy che
- 7) Type multiSelect hoy and answerType=multiple and selectionLimit=range hoy to minRange and maxRange key check karvani minRange ma jetla number hoy etle minimum select karavana and maxRange ma jetla number hoy etle maximum select karavana e select na kare tya sudhi next kare to aagad ny java devanu (same aa type DropDown hoy tyare b karvanu)
- 8) Type multiSelect hoy and answerType=multiple and selectionLimit=exactNumber and exactNumber key ma je number hoy etle selection mandatory karavana (Ex. exactNumber=4 hoy to 4 selection karvana j tya sudhi next na thy)(same aa type DropDown hoy tyare b karvanu)
- 9) Type multiSelect hoy and answerType=multiple and selectionLimit=unlimited to koy limit ny selection ma (same aa type DropDown hoy tyare b karvanu)
- 10) submitted form ni tab hase ema submit karel form no data view karvano che user e jetla form submit karya hoy e badha aavse

11) Type dropdown hoy and answerType=singal hoy to ekj option select karva deva no select box ma multiple ny

12) Phone rotate kari e to form starting thi saru thy che e na thavu joye jetlu fill thyelu hoy e fill j revu joye

13) skipLogicCondition kari n hase variable api ma skip no badho data ema aavse
